According to my phone conversation with Vicki – there could be an additional charge to transcribe she
is getting price for me but as of today I still have not gotten the final quote.

These quotes are based on these companies transcribing and making final DVD for us to air.
We do not use computers to make our programs, therefore cost for these companies to get our DVD
ready for airing with close captioning would cost us more.

We are supported strictly by donations only and cannot guarantee any kind of income to support this
process.

The cost of purchasing the equipment and translating ourselves would not be feasible. We are a small family group (up in age – not up to date on tech issues). Purchasing the right equipment and hiring someone to do the captioning would be costly for our small group. We are supported by donations only to the ministry and we have no guarantee of funds coming in.

The local television broadcast station that is currently airing our program – WGGG TV Greenville, SC

They have informed us that at this time, they do not have the capability to do close captioning. When they do have this option available – they have informed us that cost of our program will increase to cover their cost of close captioning. Which may result in cancelling our program and going off the air. Due to cost increase and lack of funds. We are supported by donations only and have no idea what will come in. We have to work within the means of income coming in for the ministry and ask God's guidance of how we spend the funds that are given to us to win souls.

We are a small family group – older folks just trying to make it to heaven and win souls to Christ, to tell them how Jesus loves them and does not want them to go to hell. Reaching souls for Christ.

Rev. Morgan is an elderly man (77) that has given his life to preaching the Gospel. He has always been a hard worker, giving of his time to the ministry. Rev. Morgan does all video editing and sending out programs to the station. And also goes out to churches for services. No one receives a salary from the ministry. Our little group consists of : Rev. and Mrs. Lloyd Morgan, Steve and Freida Bishop, (daughter and son-in-law). Each one of us donates our time to the ministry for what ever needs to be done – to minister to the lost and hurting people.

Our organization is funded strictly by donations. There is no one entity that underwrites the ministry. Rev. Morgan is strictly an evangelist, not a pastor of a church. Being supported strictly by donations, we are never certain of what funds will come in. People do die, sick, medical expenses, or whatever life may bring and can no longer support the ministry. There is no guarantee how long they will support – one time, or a couple of months or maybe one year. Life does bring challenges that we are not aware of, only God knows.

The people that do give to the ministry, specify what the money is to be used for and that is where we put it. They give toward our various mission work in the United States helping storm victims, providing water, food and shelter, and in the foreign countries to help build churches, dig wells for the people in the foreign fields to have water in their community, supporting the orphanages to feed the children, supporting the missionary in the foreign field to help feed the hungry, clothe the naked and preach the Gospel. Winning souls to Christ.

We have mentioned the close captioning of our program to people who give to the ministry, churches, friends and business friends, and no one seems to have the burden to take this on, (which again is no guarantee of funds to pay for this). Everyone is telling us that they had rather see the funds going to the mission fields, to seeing the Gospel preached, feeding the hungry, building churches, winning souls to Christ.

We do not have the funds to pay cost for this translation or purchase equipment and fund cost to run this equipment.

Hi Freida:

I can now provide you with some details about the closed-captioning that we can provide for your program on DVD. We are able to close-caption a DVD for you.

I would recommend using roll-up captioning, which is a less expensive but very acceptable format to use. We would closed-caption your DVD and create a custom menu for you if you'd like. You would provide us with blank DVD stock and also pay for return postage. We would return to you a completed, closed-captioned DVD ready for you to provide to the television station.

The cost per 30-minute show is \$295.00. That cost is all-inclusive and there are no additional hidden charges.

We would be able to turn around each DVD within 72 hours, then return to you via your choice of mail service (USPS, FedEx, UPS, etc.).

Please let me know if I can provide you with any additional information.

We would welcome the opportunity to caption for you.

Thanks,
